				158,110.0	3,292.0				

Point/Swimmer results by .75 and the previous year's Point/Swimmer result by .25, and add these two figures together. This gives you the ranking number to be used for next season's divisions:

$$\frac{\text{Total Club Points X (100)}}{\text{Total League Points}} + \frac{\text{Club \# Swimmers X (100)}}{\text{League \# Swimmers}} = \text{Division Calculation}$$
